

Celebrating 10 years of helping you help your patients

www.palliativedrugs.com Free registration

Register with the website and participate in this online worldwide community of over 12,000 members from 112 different countries.

Contains the full contents of the 3rd edition of the *Palliative Care Formulary*, **highly recommended in the British Medical Journal 2008 Book Competition.**

The website also includes:

- **Bulletin Board** for members to seek help from, and offer advice to, other members
- **Latest additions** detailing all updates to the website
- **News** about current changes in drug availability, formulation, and regulation
- **Document library**, an international repository for guidelines, policies and other documents donated by members
- **Syringe Driver Survey Database** with over 1,000 observational compatibility reports of drug combinations given by continuous SC infusion
- **Online bookshop** for members to purchase *Palliative Care Formulary* and related books by secure credit card transaction or proforma invoicing.

"The site is great, I use it often for my clinical work. The formulary is just excellent, really useful and relevant information and so impressively kept up to date."

Doctor

"I truly feel this site is fantastic! It has been a wonderful resource and a great aid in teaching my staff. Thank you."

Nurse

"This is the most useful resource that we as palliative care professionals have available and is highly respected as an excellent source of information generally."

Pharmacist

A truly world-wide network which provides an excellent forum.
